

A background image showing a group of business professionals in a meeting. They are gathered around a table with a laptop and various documents. One person is pointing at a document, while another is holding a pen. The scene is brightly lit, suggesting a modern office environment.

Clicktale's integration with Medallia

Uncover the Digital Body Language behind customers' feedback

Clicktale's two-way integration with Medallia adds a deeper behavioral layer to your Voice of Customer analysis. Leveraging this integration between Clicktale and Medallia will enable deeper understanding of what happened in web and mobile user sessions and why. With an in-depth look at visitors' behavior and in-page experience, you can pinpoint specific website experiences that cause customer struggle so that you can act faster to close the loop with the customer.

Integration Benefits

Turn feedback into actionable insights

Improve your understanding of customer behavior within the Medallia Experience Cloud by linking directly into Clicktale to replay the exact sessions of visitors who submitted positive or negative feedback. Fill in the blanks and understand why visitors' struggle by seeing the full picture behind users' digital journey within pages and across sessions. Share replays with your team to align all stakeholders around your visitors' actual experience.

Investigate issues with aggregated and segmented analysis

Investigate customer feedback in aggregate with Clicktale's data-rich heatmaps, funnel analytics, and form analytics. Segment reports using flexible behavioral criteria, including Medallia metrics such as: the specific feedback forms filled out, devices used, level of satisfaction or dissatisfaction, and a host of other parameters.

Easily access replays for specific session responses

Search and filter results for users providing feedback by form filled, form type, satisfaction rating, or unique user ID. Easily identify and play back the individual sessions meeting these criteria for closer scrutiny.

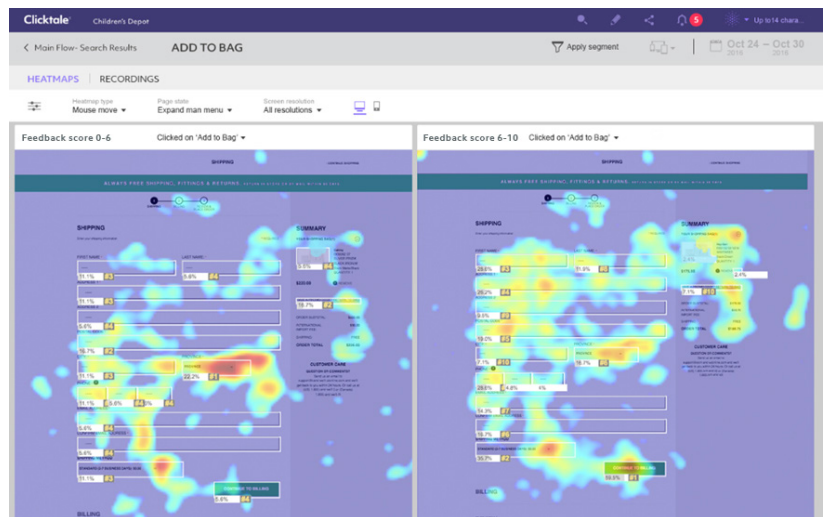

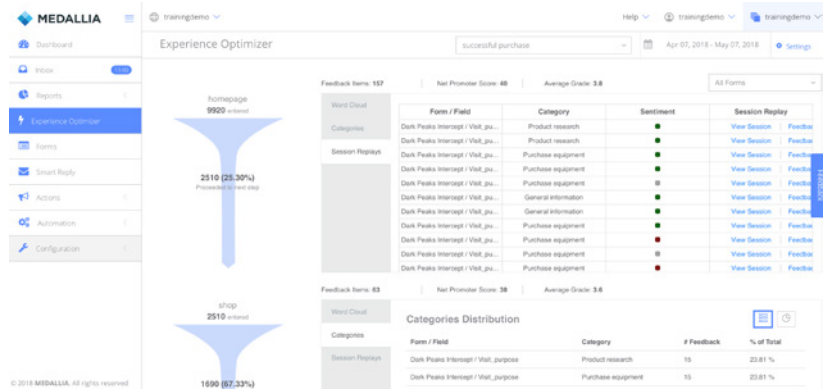

Answer anything.

Leverage Clicktale and Medallia Experience Cloud as one unified and trusted platform

Leverage Clicktale's Event-Triggered Recorder to capture 100% of the sessions where visitors submit feedback and view these sessions for greater contextual understanding of your user experience.

Find and access Clicktale session replays directly from Medallia Experience Cloud based on form filled, form type, satisfaction rating, and unique user ID.

How it works

The two-way integration of Medallia and Clicktale is easy to configure and use.

1. Provide your Medallia customer success manager with your Clicktale account, Clicktale Project ID, and Clicktale security token. After setup, the integration automatically pairs Clicktale recordings with surveys.
2. Access replays in Medallia Experience Cloud with a single click from any survey submission. Search by form filled, form type, unique user ID, or satisfaction rating to find the replays you need to see.
3. Filter all Clicktale analyses and heatmaps by response type, rating, or form used.

Take advantage of this integration today

The two-way integration between Clicktale and Medallia makes it easy to uncover the Digital Body Language behind customer feedback data. Contact Clicktale today to configure this integration for your account, so you can more quickly illuminate and optimize your digital customer experience.
